Babar Lounge Chair

Comfort and composure converge in the Babar Lounge Chair by Beaufurn. This design evokes a warm embrace; the outward flair of the arms welcomes you to sit and relax, while the upward taper of the head support adds a stately feel. Made of co-injected molded foam over a metal frame the Babar Lounge Chair is built to hold up in any market; healthcare, government, or hospitality, this is our most comfortable lounge chair yet. The heavy gauge tubular-steel curved base is powder-coated black and provides a secure foundation for its upholstered counterpart. With its full, robust silhouette and sleek frame, the Babar Lounge Chair portrays a modern style while still giving an invitation to sit and relax for a while. The Babar Lounge can be upholstered in approved COM or graded-in material, and the frame is powder coated in standard Black. White, Aluminum, and Brass are also offered with an upcharge. Also, available with wooden leg base. U.S. Patent No. D936,989. U.S. Patent No. D953,053 Measures: 33.5 W x 31" D x 38" H x 18" SH
